Bnh	5/12/04	BWT
Claims appear to be allowable due to submitted Declaration under Rule 131 swearing Behind Butler U.S. Pat. No. 6,201,853.		
Bnh	5/12/04	BWT
- Discussed U.S. Pat. 5,802,143 (Borcherding et al) cited on the Butler Patent (6,201,853).		
- Borcherding reads on independent claims 1, 10, 29 and 44.		
- Claims 19 and 24 are in condition for allowance due to "random selection" used for connecting the predetermined circuitry.		
- Suggested that Examiner call Attorney of record and propose amendment for claims 1, 10, 29 and 44 to reflect the "random selection".		
Examiner finally got response from Applicant's representative (Mike Shea) stating that an additional Rejection is desired at this time.	6/16/04	BWT
